## SUMMARY

A passionate and skilled web developer with a solid foundation in the MERN stack (MongoDB, ExpressJS, ReactJS, NodeJS) and expertise in Python and Django for backend development. Proficient in multiple programming languages, including C, C++, and Java, with strong version control knowledge using Git. Adept at building dynamic and responsive web applications, and always eager to learn and adapt to new technologies. Seeking a challenging role in web development where I can leverage my skills to contribute to innovative projects.

---

## EDUCATION

### Bachelor Of Computer Engineering

Anjuman Islam's Kalsekar Technical Campus • Panvel, India • 2026 • 7.47 SGPI (1st to 4th Sem)

• Participated In Smart India Hackathon 2023

### Higher Scndary School

MS College of Science • Mumbai • 2022 • 62%

---

## PROJECTS

### Learning Management System

Project • [github.com/aquib22co/learning-management-system-1.git](https://github.com/aquib22co/learning-management-system-1.git) • July 2024 – August 2024

- Developed A Platform which gives the All the Students, Teachers and Admin to be updated in their Daily work with the unique added Features for each of the Roles. My Role in this Project was to develop backend side of the Platform, seeing the functionalities like creating the users and also Database Designing. LMS is Made with Technologies like React.js, Express.js, Node.js and MongoDB
- Engineered a comprehensive Learning Management System (LMS) with distinct features for students, teachers, and administrators, enhancing daily operational efficiency. Spearheaded backend development, including user creation and database design, utilizing technologies such as React.js, Express.js, Node.js, and MongoDB.

### Student Mentoring System

Personal Project • [github.com/aquib22co/Student-Mentoring-System](https://github.com/aquib22co/Student-Mentoring-System) • January 2023 – March 2023

- Implemented a student mentoring system that matched students with mentors, tracked progress via a custom-built dashboard, and increased student retention rates by 25%.

---

## CERTIFICATIONS

### Google Cyber Security

Google • 2024

- This certificate builds the Base of core IT concepts like Networking, Security, Threats, Vulnerability etc.

### C/C++

ITI Kutchi • 2023

- This certificate is relevant because of its good technical importance in building ones problem solving skill and More importantly teaching the students to how to code in C and C++
